

Open PostDoc position in the “Powder Diffraction and Surface Spectroscopy” group
PD. Dr. Claudia Weidenthaler

Requirements and information for application:

We offer a PostDoc position the Weidenthaler group with focus on in situ/operando studies of functional materials. Special interest is on energy-relevant materials for storage and conversion of energy and the development of tailor-made sample cells for in situ XRD/neutron diffraction studies.

Basic knowledge in crystallography and a PhD degree in chemistry, material science, mineralogy or physics are required.

Each application should include:

- a short motivation letter
- CV
- a copy of your diploma/MSc/PhD certificate (if available)

Please send your application via email: Dr. Claudia Weidenthaler
